## Diving Deep Lyrics

## RED SHOES

So I've got this pair of nice red shoes  
Made of the finest leather  
Shining bright, day and night  
Through rain and stormy weather

They take me places I've never been  
Over hills and over mountains  
All the way, all the way  
They keep running, hmm

### *CHORUS*

And I keep on dancing with these shoes on my feet  
But is it really my dance or record on repeat?  
I keep on dancing with these shoes on my feet  
And I start to wonder is this really what I need

They hunger for another bite  
Of wicked world sensations  
Want to taste, want to shine,  
Want to tell me it all should be mine

They long for perfect sentiment  
For strange stimulations  
For the sake to find  
Peace of mind

### *CHORUS*

And I keep on dancing with these shoes on my feet  
But is it really my dance or record on repeat?  
I keep on dancing with these shoes on my feet  
And I start to wonder is this really what I need

Ooh, ooh, I just can't keep up no more  
Ooh, ooh, I got to let them go  
So, to end this shoe frustration  
I'll enjoy the relaxation

### *CHORUS*

And I won't be dancing with these shoes on my feet  
'Cause it wasn't my dance but a record on repeat  
And I'm staying here to figure out just what I need  
Finding the pathway to my rhythm and my beat

## SHEWOLF

Moonlit sky, I watch her glow  
As we sit here. And we both know  
Here we are again, same old show again.  
Same old story, same old path

As we sit in silence  
No more words to be said  
And I'm realizing that  
It is time for me to set her free  
The shewolf in me

### *CHORUS*

So I get up on my feet and get out through the door  
Following this road once more  
And I howl at the moon, scream and shout, let it all out  
And come back to you, to show who I am

Funny thing to do, look at you  
Dirt in my hair, but I don't really care  
She is taking over me, wild and free  
What a sweet, sweet thing, I'm letting her in

### *CHORUS*

And she's gaining in strength from my toes to my head  
Unleashing the words I never said  
And I howl at the moon, scream and shout, let it all out  
And come back to you, to show who I am

### *BRIDGE*

When I come back, beware of me  
I'm dangerous, you see  
So close the door, don't talk no more  
And let yourself be eaten by me

### *CHORUS*

And I howl at the moon, scream and shout, let it all out  
And come back to me, to see who I am  
Just howl at the moon, scream and shout, let it all out  
And come back to me and see who I am, see who I am

## TURNING POINT

I've been to places on this world  
On adventure, discovering the earth  
I climbed the highest mountain, dived in open sea  
I watched the sunset, let the light pour over me

I saw the ancient cities, lived between the trees  
I laughed, I loved, I cried, and I fell hard on my knees  
I've travelled long and far before I finally found that  
Earth's treasures are all around

### *CHORUS*

And now I see, the turning point for me  
The moment that I free the treasures hidden inside of me  
Now I'm one, on earth I belong  
Singing my own song, the path is right open

### *BRIDGE*

And I can only sing this much  
When I'm giving it my human touch  
Flowing through all I feel  
Allowing nature to turn the wheel

### *CHORUS*

And now I see, the turning point for me  
The moment that I free the treasures hidden inside of me  
Now I'm one, on earth I belong  
Singing my own song, the path is right open

And now I see, the turning point for me  
The path is right open

## SURRENDER

Who's this woman, staring back at me  
Through the glass in the mirror?  
Her eyes so dark and deep  
Like an ocean full of grief  
What are these tears upon her face?  
What is she hiding deep inside?

### *CHORUS*

Darkness surrounds me and it fills me up inside  
I can't control it and there's nowhere to hide  
As She embraces me, I fall on my knees  
And I want nothing but peace

On the edge of my soul  
There's a stillness of the whole  
Breathing in, witnessing,  
Letting go of all I know

### *CHORUS*

Darkness surrounds me and it fills me up inside  
I can't control it and there's nowhere to hide  
As She embraces me, I fall on my knees  
And I want nothing but peace

### *BRIDGE*

The deeper I go, the higher my love will grow  
I will not stop and fight, let in the Light

### *CHORUS*

Darkness surrounds and I hold it inside  
I won't ignore it and I won't hide  
As I'm embracing Her, I fall on my knees  
And I surrender to peace  
There is nothing but peace  
And I am nothing  
But peace

## DIVING DEEP

Windows broken, cracks wide open  
Can't hold what's burning deep inside  
Tried to change it and ignore it  
But no longer I want to hide

I don't know where this will take me  
But I'm lost if I can't find a way  
To release the words unspoken  
I just hope that I won't fade away

### *CHORUS*

So please, contain me  
Hold me close as I fall on my knees  
Oh please, contain me  
As I give up and release

Diving deep I mourn and weep  
Of all the lost and the lies  
I embrace my human being  
Stay the same and change all the time

### *CHORUS*

So please, contain me  
Hold me close as I fall on my knees  
Oh please, contain me  
As I give up and release

### *BRIDGE*

As my walls come crumbling down  
Can I lean 'till steady ground  
I'm used to walking alone  
But I want to return home

### *CHORUS*

So please, contain me  
Hold me close as I fall on my knees  
Oh please, contain me  
As I give up and release

'Cause I want to release  
Help me release  
So I can be  
So I can be  
So I can be in peace

## OPENED UP

See the light shine on the pavement down the road  
Casting shadows on the street  
A million miles from home I'm walking to this beat  
I feel the rhythm of my soul

### *CHORUS*

And though I don't know where I'm going  
I'm taking one step at a time  
Following my inner knowing  
Opened up and pure divine

All around me I see people passing by  
Going fast along the way  
But then I'm sensing the sweet taste of this day  
And I know that I'm okay

### *CHORUS*

And though I don't know where I'm going  
I'm taking one step at a time  
Following my inner knowing  
Opened up and pure divine

### *BRIDGE*

Whenever I get stuck or get lost along the way  
I go on in finding a way  
Creating brick by brick and stone by stone  
To the rise of a new way

### *CHORUS*

And though I don't know where I'm going  
I'm taking one step at a time  
Following my inner knowing  
Opened up and pure divine  
Opened up and pure divine  
Opened up and pure divine

## GOLDEN SPARKS

When I wake up in the morning with sleep in my eyes  
I think of the things that I went through last night  
Wide awake in the night in the light of the moon  
How I laid there and wished you were here with me soon  
With me soon

In my heart I know that you are thinking of me  
And that I am the person that you like to see  
I am grateful for living my life by your side  
Knowing there's nothing I need to hide

### *CHORUS*

And oh, how we have grown  
Through the years that we share our home  
Loving you is a ride in the dark  
With fire and lightning and golden sparks

From the moment I saw you I knew that you'd be  
The one I was hoping and waiting to see  
We're together, forever and ever we'll be  
Making each other free

### *CHORUS*

And oh, how we have grown  
Through the years that we share our home  
Loving you is a ride in the dark  
With fire and lightning and golden sparks  
Oh, how I love those golden sparks  
Golden sparks

This morning I woke up with sleep in my eyes  
I turned my head, saw you, and that made me smile

## QUEENS AND KINGS

I see the road ahead, though it's not yet made  
And I know that, I'm the one to take  
The stones and steps, a pathway that  
Someone may follow one day  
And with every step that we take, there will be a clearer way

### *CHORUS*

And we make way for a brighter day  
Where fear is gone, and love is here to stay  
And all of life will shine and thrive  
And you and I shall sing  
Of joy and free, liberty, to be Queen and King

I go about my day and do the work  
Oh, I feel through all there is and release the hurt  
And day by day I clear my way and I know that you are too  
Release the gifts that I found is what I love to do

### *BRIDGE*

Let's work together to make things anew  
Trust in our hearts and believe it is true  
Share your gifts with the world and set them free  
Be all that you can be

### *CHORUS*

And we make way for a brighter day  
Where fear is gone, and love is here to stay  
And all of life will shine and thrive  
And you and I shall sing  
Of joy and free, liberty, to be Queen and King  
Queen and King  
Queen and King  
Queen and King

## DARK&LIGHT

It might sound crazy, but I have a plan  
It concerns every woman and man  
It's about the children and the fish in de seas  
The leaves on the trees, the birds and the bees, aha

Come on and listen to what I've got to say  
'Cause you know that it's time for a change  
All you need is believe when I say  
There is a way, that there is a way, aha

### *CHORUS*

And it goes like  
Dark and light are intertwined  
It's all the same  
Let's play this game

It might sound crazy, but it is true  
You are me and I am you  
We're in this together, there's no one to blame  
It's all the same, we're all the same, aha

### *CHORUS*

So it goes like  
Dark and light are intertwined  
It's all the same  
Let's play this game

### *BRIDGE*

And you'll find that you were whole all along  
It's here where you belong

So be kind  
And shine your light  
Embrace your dark  
And fire up your spark
